PROFILE

a front-end developer driven by a clear mission and a burning passion to build web applications that deliver superior user experiences and add value to the world.

EXPERIENCE

2022-Present

Frontend Developer Internship
Frontend simplified

- Used animations, transitions, and carousels to turn a static HTML, CSS, JavaScript, and ReactJS single page application into an interactive user experience.
- Processed API requests, utilized skeleton loading states, pagination, and dynamic routing.
- Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment

2022-Present

Frontend Developer Support
Frontend simplified

- Used best practices for HTML, CSS, Flexbox, JavaScript, and React to assist more than 100 students.
- Helped others understand difficult programming concepts including responsive website development, CSS layout, Promises and API requests.

2021-2022

Freelance Web design & Development
Freelance

- Worked directly with clients to build projects(E-commerce, landing pages)from the ground up.
- Wireframing, low & hi fidelity prototyping in Figma.
- Custom development with no code tools Webflow, Editor-x, Kajabi.

EDUCATION

Product Design (UI/UX)
ELVTR (Instructor: Simone Ferraro | LinkedIn Sr. Designer)
